Farm Service Agency Makes Administrative Change to the Livestock Indemnity Program

Agricultural producers who have lost livestock to disease, resulting from a weather disaster, have an additional way to become eligible for the [Livestock Indemnity Program](#).

In the event of disease, this change by USDA's Farm Service Agency (FSA) authorizes local FSA county committees to accept veterinarian certifications that livestock deaths were directly related to eligible adverse weather and unpreventable through good animal husbandry and management. The committees may then use this certification to allow eligibility for producers on a case-by-case basis for LIP.

LIP provides benefits to agricultural producers for livestock deaths in excess of normal mortality caused by adverse weather, disease or by attacks by animals reintroduced into the wild by the federal

State Committee meeting: government. Eligible weather events include earthquakes, hail, TBA
TBA

To find contact information for your local office go to www.fsa.usda.gov/ms Producers interested in LIP or other USDA disaster assistance programs should contact their [local USDA service center](#)

Submit Loan Requests for Financing Early

Farm Loan Teams are already working on operating loans for spring 2019 so it is important that potential borrowers submit their requests early, so they can be timely processed. The farm loan team can help determine which loan programs are best for applicants.

FSA offers a wide range of low-interest loans that can meet the financial needs of any farm operation for just about any purpose. The traditional **farm operating and farm ownership loans** can help large and small farm operations take advantage of early purchasing discounts for spring inputs as well expenses throughout the year.

2019 Acreage Reporting Dates

In order to comply with FSA program eligibility requirements, all producers are encouraged to visit their local FSA office to file an accurate crop certification report by the applicable deadline.

Acreage reporting dates vary by crop and by county so please contact your local FSA office for a list of county-specific deadlines.

The following exceptions apply to acreage reporting dates:

- If the crop has not been planted by the applicable acreage reporting date, then the acreage must be reported no later than 15 calendar days after planting is completed.
- If a producer acquires additional acreage after the applicable acreage reporting date, then the acreage must be reported no later than 30 calendar days after purchase or acquiring the lease. Appropriate documentation must be provided to the county office.
- If a perennial forage crop is reported with the intended use of "cover only," "green manure," "left standing," or "seed," then the acreage must be reported by July 15th

Noninsured Crop Disaster Assistance Program (NAP) policy holders should note that the acreage reporting date for NAP covered crops is the earlier of the applicable dates or 15 calendar days before grazing or harvesting of the crop begins.

For questions regarding crop certification and crop loss reports, please contact your local FSA office.

USDA and SCORE Joining Forces to Find Mentors

If you are a farmer or rancher, or have agricultural or business experience, join us in supporting the next generation and in investing in your local community! Your experiences and knowledge as a business owner, agricultural professional, or farmer can provide vital support to the community you live in.

USDA is collaborating with SCORE – www.score.org - the nation's largest network of volunteer, expert business mentors in an effort to expand the field of available agricultural mentors and provide free business mentoring to farmers, ranchers, and other agricultural and rural business

owners. SCORE is currently looking for volunteers with experience in an agriculture-related field who would like to become a part of an extended field of volunteers. The organization's Orientation and Mentoring Certification program provides volunteers with everything needed to be a successful volunteer. Training includes background about SCORE's mission and services, as well as guidance on how to be a business mentor, including enhancement of listening, interviewing and problem-solving skills.

Current SCORE volunteer mentors have backgrounds in finance, accounting, marketing, operations, business and financial planning. The mentors provide local expertise and free one-on-one business mentoring to new and existing farmers and business owners. Together they work through the process of starting up or maintaining agricultural and rural businesses. No matter what stage a business is in, SCORE volunteer mentors can help in developing business plans, navigating financing and legal issues, identifying new markets, and other topics, in order to help their clients succeed. FSA invites you to learn more and sign up to become a mentor today at <https://newfarmers.usda.gov/mentorship>.

Update Your Records

FSA is cleaning up our producer record database. If you have any unreported changes of address, zip code, phone number, email address or an incorrect name or business name on file they need to be reported to our office. Changes in your farm operation, like the addition of a farm by lease or purchase, need to be reported to our office as well. Producers participating in FSA and NRCS programs are required to timely report changes in their farming operation to the County Committee in writing and update their CCC-902 Farm Operating Plan.

If you have any updates or corrections, please call your local FSA office to update your records.

Acreage Reports:

In order to maintain program eligibility and benefits, producers must timely file acreage reports. Failure to file an acreage report by the crop acreage reporting deadline may result in ineligibility for future program benefits. FSA will not accept acreage reports provided more than a year after the acreage reporting deadline.

Guaranteed Loan Program

FSA guaranteed loans allow lenders to provide agricultural credit to farmers who do not meet the lender's normal underwriting criteria. Farmers and ranchers apply for a guaranteed loan through a lender, and the lender arranges for the guarantee. FSA can guarantee up to 95 percent of the loss of principal and interest on a loan. Guaranteed loans can be used for both farm ownership and operating purposes.

Guaranteed farm ownership loans can be used to purchase farmland, construct or repair buildings, develop farmland to promote soil and water conservation or to refinance debt.

Guaranteed operating loans can be used to purchase livestock, farm equipment, feed, seed, fuel, farm chemicals, insurance and other operating expenses.

FSA can guarantee farm ownership and operating loans up to \$1,399,000. Repayment terms vary depending on the type of loan, collateral and the producer's ability to repay the loan. Operating loans are normally repaid within seven years and farm ownership loans are not to exceed 40 years.

Please contact your lender or local FSA farm loan office for more information on guaranteed loans.

Farm Storage Facility Loans

FSA's Farm Storage Facility Loan (FSFL) program provides low-interest financing to producers to build or upgrade storage facilities and to purchase portable (new or used) structures, equipment and storage and handling trucks.

The low-interest funds can be used to build or upgrade permanent facilities to store commodities. Eligible commodities include corn, grain sorghum, rice, soybeans, oats, peanuts, wheat, barley, minor oilseeds harvested as whole grain, pulse crops (lentils, chickpeas and dry peas), hay, honey, renewable biomass, fruits, nuts and vegetables for cold storage facilities, floriculture, hops, maple sap, rye, milk, cheese, butter, yogurt, meat and poultry (unprocessed), eggs, and aquaculture (excluding systems that maintain live animals through uptake and discharge of water). Qualified facilities include grain bins, hay barns and cold storage facilities for eligible commodities.

Producers do not need to demonstrate the lack of commercial credit availability to apply. The loans are designed to assist a diverse range of farming operations, including small and mid-sized businesses, new farmers, operations supplying local food and farmers markets, non-traditional farm products, and underserved producers.

To learn more about the FSA Farm Storage Facility Loan, visit www.fsa.usda.gov/pricesupport or contact your local FSA county office. To find your local FSA county office, visit <http://offices.usda.gov>
